

NSOROMA

GPS Tracking Solutions

NSO Issue #3

SERVICES

Trip costing

With the help of our telemetric data generated we can be able to tell our clients how many trips their vehicles have made in a particular period. This can easily be transformed into how much our clients expect to be making from their vehicles in a period. This feature brings about accountability and high productivity.

Fuel report

In fleet management fuel cost is a major component of overall expenses, hence the need to monitor and control the use of fuel. As part of our service features we can provide our clients with precise report on fuel usage by each vehicle and aggregate reports for entire fleet.

Service alerts

Breakdown of vehicle causes a lot of direct and indirect cost and losses to companies. Prompt servicing of vehicles could help avoid unwanted vehicle breakdown. Nsoroma GPS service alert feature serves as reminders when servicing of vehicles are due.

OTHER NEWS

NSOROMA SUPER XI wins novelty cricket league

Nsoroma Super XI emerged champions of the novelty cricket league organised in Accra to unearth talents.

Tracking device gives up three suspected robbers

Armed robbers nabbed heading to Aflao after they assaulted their victim with a gun, smashed the windshield of his private car and drove off with his company vehicle which unfortunately for them had a tracker. The [#tracker](#) led to their arrest. [#security](#)
