

Hardware Selection

Hardware backed by warranty. So many options.

Whether you're working with black boxes for vehicles and high-value assets, mobile devices or laptops for direct personnel communication, nothing works more quickly and easily with your hardware than our fleet software.

Nsoroma's partnerships offer customers best-in-class technology with proven reliable components and network capabilities. Whether you are entering the location-based services market for the first time, have an existing telematics solution, or simply upgrading to current technology, Nsoroma works with customers to develop specific requirements and source the appropriate devices so you can get the best GPS tracking hardware and equipment to suit your business.

Do you already have legacy tracking hardware? No problem. Let's take a look at it. Our tracking software can work with a wide variety of hardware. Where possible we will help you save money by reusing old hardware to access our world class service.

Nsoroma GPS!! For Security and productivity!!!
